Vol. 32, No. 1 **February 1992**

P. CAMBON, S. Q. ZHENG ET J. BASTIDE. Dégradation chimique ou microbiologique des sulfonylurées dans le sol. I. Cas du sulfométuron methyle 1
B. FUKS, F. VAN EYCKEN AND R. LANNOYE. Tolerance of triazine-resistant and susceptible biotypes of three weeds to heat stress: a fluorescence study 9
A. WALKER AND S. J. WELCH. Further studies of the enhanced biodegradation of some soil-applied herbicides 19
F. FORCELLA. Prediction of weed seedling densities from buried seed reserves 29
A. BERTI, G. ZANIN, G. BALDONI, C. GRIGNANI, M. MAZZONCINI, P. MONTEMURRO, F. TEI, C. VAZZANA AND P. VIGGIANI. Frequency distribution of weed counts and applicability of a sequential sampling method to integrated weed management 39
E. H. SATORRE AND R. W. SNAYDON. A comparison of root and shoot competition between spring cereals and *Avena fatua* L. 45
L. VEZINA. Influence de la date de semis sur la compétition de peuplements de *Setaria pumila* et d'*Echinochloa crus-galli* avec l'orge et le blé de printemps 57
K. K. PERERA, P. G. AYRES AND H. P. M. GUNASENA. Root growth and the relative importance of root and shoot competition in interactions between rice (*Oryza sativa*) and *Echinochloa crus-galli* 67

Vol. 32, No. 2 **April 1992**

C. L. ELMORE AND D. E. BAYER. Mitotic and structural effects of nitralin and butralin on ryegrass (*Lolium perenne* L.) root meristems 77
W. C. MORGAN AND A. S. MORGANS. Potential use of activated carbon as a protectant against pre-emergence herbicides in direct-seeded processing tomatoes 87
F. DESSAINT, G. BARRALIS, E. BEURET, M. L. CAIXINHAS, B. J. POST ET G. ZANIN. Etude coopérative EWRS: la détermination du potential semencier: II—estimation de la précision relative sur la moyenne à partir de composites 95
C. A. SMITH, D. R. SHAW AND L. J. NEWSOM. Arrowleaf sida (*Sida rhombifolia*) and prickly sida (*Sida spinosa*): germination and emergence 103
Y. GUTTERMAN, F. CORBINEAU AND D. CÔME. Interrelated effects of temperature, light and oxygen on *Amaranthus caudatus* seed germination 111
D. A. WARDLE, K. S. NICHOLSON AND A. RAHMAN. Influence of pasture grass and legume swards on seedling emergence and growth of *Carduus nutans* L. and *Cirsium vulgare* L. 119
P. I. SAMB AND A. CHAMEL. Foliar absorption and translocation of ^{14}C-dicamba into host (pearl millet and cowpea) and parasite plants of the genus *Striga* 129
J. SABADIE. Réactivité de l'herbicide chlorsulfuron: synthèse et structure de ses produits de dégradation 137
A. M. BALINOVA AND M. P. LALOVA. Translocation, metabolism and residues of fluazifop-butyl in soybean plants 143

Vol. 32, No. 3 **June 1992**

D. VEGA, J. BASTIDE ET C. POULAIN. Dégradation chimique ou microbiologique des sulphonylurées dans le sol. II. Cas du metsulfuron méthyle 149
F. K. OPPONG AND G. R. SAGAR. The activity and mobility of triasulfuron in soil as influenced by organic matter, duration, amount and frequency of rain 157
F. K. OPPONG AND G. R. SAGAR. Degradation of triasulfuron in soil under laboratory conditions 167

D. M. Exley and R. W. Snaydon. Effects of nitrogen fertilizer and emergence date on root and shoot competition between wheat and blackgrass 175
P. J. Holloway and B. M. Edgerton. Effects of formulation with different adjuvants on foliar uptake of difenzoquat and 2,4-D: model experiments with wild oat and field bean 183
R. G. Lehmann, J. R. Miller, D. D. Fontaine, D. A. Laskowksi, J. H. Hunter and R. C. Cordes. Degradation of a sulfonamide herbicide as a function of soil sorption 197
S. B. Powles, E. S. Tucker and T. R. Morgan. Eradication of paraquat-resistant *Hordeum glaucum* Steud. by prevention of seed production for 3 years 207
R. Rioux et A. Légère. Effet de la densité et de la proportion des plantes lors de l'envahissement de la luzerne par *Taraxacum officinale* Weber 213
H.-P. Malkomes. Herbizideinflüsse auf mikrobielle Aktivitäten im Boden unter variierten ökologischen Bedingungen: Abhängigkeit von der Bodenfeuchte 221
H.-P. Malkomes. Herbizideinflüsse auf mikrobielle Aktivitäten im Boden unter variierten ökologischen Bedingungen: Abhängigkeit von der Bodentemperatur 231
A. G. T. Babiker, C. Parker and J. C. Suttle. Induction of *Striga* seed germination by thidiazuron 243

Vol. 32, No. 4 **August 1992**

R. Y. van der Weide. Phenology of arable and hedgerow populations of *Galium aparine* L. in relation to climate and soil conditions 249
W. W. Donald. Herbicidal control of *Cirsium arvense* (L.) Scop. roots and shoots in no-till spring wheat (*Triticum aestivum* L.) 259
J. Rasmussen. Testing harrows for mechanical control of annual weeds in agricultural crops 267
J. M. Garcia-Baudin, C. Sanchez-Brunete, T. Salto, M. C. Chueca and J. L. Tadeo. Enhancement of wheat tolerance to triallate with the safener MON 5501 275
H. Traore et J. Maillet. Flore adventice des cultures céréalières annuelles du Burkina Faso 279
P. K. Jensen. Split application of herbicides in peas 295
F. Corbineau, D. Belaid and D. Côme. Dormancy of *Bromus rubens* L. seeds in relation to temperature, light and oxygen effects 303
B. Jeangros and J. Nösberger. Comparison of the growth response of *Rumex obtusifolius* L. and *Lolium perenne* L. to photon flux density 311
J. Kigel, E. Lior, L. Zamir and B. Rubin. Biology of reproduction in the summer annual weed *Euphorbia geniculata* Ortega 317

Vol. 32, No. 5 **October 1992**

K. K. Perera and P. G. Ayres. Effects of shepherd's purse (*Capsella bursa-pastoris* L. Medic.) on the growth of radish (*Raphanus sativus* L.) 329
S. Santier and A. Chamel. Penetration of glyphosate and diuron into and through isolated plant cuticles 337
J. J. Hart, S. R. Radosevich and A. Stemler. Influence of light intensity on growth of triazine-resistant rapeseed (*Brassica napus*) 349
J. P. Cambon et J. Bastide. Dégradation chimique ou microbiologique des sulfonylurées dans le sol. III. Cas du thifensulfuron méthyle 357
C. A. Levesque, J. E. Rahe and D. M. Eaves. The effect of soil heat treatment and microflora on the efficacy of glyphosate in seedlings 363
C. Urvoy, M. Pollacsek and C. Gauvrit. Seed oils as additives: penetration of triolein, methyloleate and diclofop-methyl in maize leaves 375

A. P. Everaarts. Response of weeds to application of nitrogen, phosphorus and potassium on low-fertility acid soils in Suriname 385
A. P. Everaarts. Response of weeds to the method of fertilizer application on low-fertility acid soils in Suriname 391
B. M. Sindel and P. W. Michael. Growth and competitiveness of *Senecio madagascariensis* Poir. (fireweed) in relation to fertilizer use and increases in soil fertility 399
G. Zanin, G. Mosca and P. Catizone. A profile of the potential flora in maize fields of the Po valley 407
T. Røyneberg, N. E. Balke and K. Lund-Høie. Effects of adjuvants and temperature on glyphosate absorption by cultured cells of velvetleaf (*Abutilon theophrasti* Medic.) 419

Volume 32, Number 6 **December 1992**

J. Sabadie. Dégradation de l'herbicide chlorosulfuron déposé sur divers supports minéraux 429
M. J. Kropff & C. J. T. Spitters. An eco-physiological model for interspecific competition, applied to the influence of *Chenopodium album* L. on sugar beet. I. Model description and parameterization 437
M. J. Kropff, C. J. T. Spitters, B. J. Schnieders, W. Joenje & W. de Groots. An eco-physiological model for interspecific competition, applied to the influence of *Chenopodium album* L. on sugar beet. II. Model evaluation 451
K. Ampong-Nyarko, S. K. de Datta & M. Dingkuhn. Physiological response of rice and weeds to low light intensity at different growth stages 465
J. L. P. van Oorschot & P. H. van Leeuwen. Use of fluoresence induction to diagnose resistance of *Alopecurus myosuroides* Huds. (black-grass) to chlorotoluron 473
J. Salonen. Efficacy of reduced herbicide doses in spring cereals of different competitive ability 483
J. Salonen. Yield responses of spring cereals to reduced herbicide doses 493
Glossary of Common Names and Abbreviations of Herbicides 501
